

HYDRONIC PORTABLE ELECTRIC BASEBOARD

Ideal for bedrooms or nurseries, hydronic baseboards wrap your family in gentle, steady warmth that fills the room. Our portable version can be plugged into any standard 120-volt outlet.

BENEFITS

- Smart design helps reduce the effect of indoor allergens
- Lowest surface temperatures available—perfect for homes with kids and pets
- Environmentally-friendly mineral oil retains heat much longer than regular baseboards, and spreads residual heat even after thermostat turns off
- Includes high-temperature safety shutoff feature, safety tip-over switch, and 120-volt grounded plug
- Thermostat setpoint range 40° to 85°F (4° to 29°C)
- Sleep soundly, thanks to silent operation

APPLICATIONS

All Residential Applications | Commercial Offices | Lobbies

ORDERING GUIDE

Part	Cat. No.	Watts	BTU	Volts	Amps	Weight (kg/lbs.)
43459	DEPN1500W	1500	5120	120	12.5	10.5 / 23.3

SPECIFICATIONS

Voltage	120V with 6-foot cord and grounded plug
Wattage	1500W
Color	White
Finish	Powder coating resists fading and abrasion
Construction	Robust, 22 gauge steel construction
Heating Element	Copper element with aluminum fins, filled with non-toxic mineral oil providing maximum efficiency and thermal storage
Control	Built-in adjustable thermostat (4° to 29°C / 40° to 85°F)
Warranty	7-year warranty on complete unit
