

## Enclosed Motor Construction Heater

EMC

Sealed Motor

### Features

#### Powerful Heating

Delivers powerful heat output with a propeller type fan, accurately balanced and correctly pitched to optimize performance.

#### Safe

Thermal overheat protection for safety.

#### Stainless Steel Tubular Element

Stainless steel tubular element produces safe and efficient heat.

#### Prevents Dust

Enclosed motor design prevents accumulation of dust and extends motor life.

#### Temperature Control

Double pole thermostat is built-in with temperature range of 5-57°C (41-135°F).

#### Durable Finish

Polyester/epoxy powder coating resists fading and abrasion.

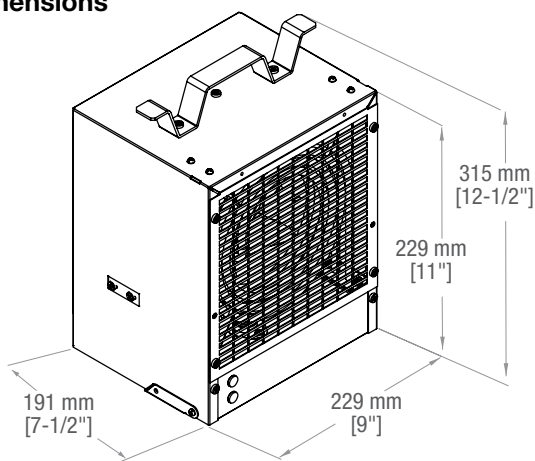

#### Includes Cord

Includes 6 foot cord with NEMA standard plug (3-30P).

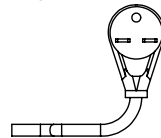

#### Applications

Portable heat for workshops, garages, or construction sites.

### Dimensions

3 prong polarized plug 30 Amp
